To Whom It May Concern:

It is my pleasure to recommend Luke Barcenás for admission to the University of Florida. He was a student in my mathematics class, and I can attest that he demonstrates academic excellence to the highest degree. Not only did he perform exceedingly well in class, he was also an impressive team player, helping lower performing students understand the course content and reinforcing their knowledge.

Luke is an exceptionally ambitious student and cares deeply about his education as well. I am confident that he will further pursue his passions while displaying a high level of academic merit at your university.

Sincerely,

Manuel J. Caramés
